

Notice of a Gas Supply Shortfall Trigger Event

AEMO Gas Supply Shortfall Trigger Notification

AEMO has identified a gas supply shortfall trigger event at the Victoria, South Australia and Tasmania regions for gas day 2 June 2022. The trigger event notification occurred at 14:00 hrs AEST on 1 June 2022.

The event is being triggered due to Low reserve conditions in the NEM, prevailing NEM supply, gas supply, pipeline capacity or market conditions and generators running on liquid fuel due to lack of gas supply.

AEMO will proceed to convene a gas supply shortfall Assessment Conference with Members from impacted region and any other Members AEMO deem necessary to assess the gas supply shortfall trigger event.
